

Rohit Chapagain

I am interested in the role of a Software Engineer, where I can leverage my analytical skills and the knowledge I have acquired through my pursuit of a BTECH HND in Software Engineering and a BSc Hons in Computing. Currently, I am employed as a software developer at SB Solutions Nepal, where I have gained some experience in Angular JS and have also had some exposure to Java.

Expierence

I initially worked as a front-end developer using AngularJS for about 8 to 10 months. Currently, I am working as both a front-end developer and a back-end developer, using Spring Boot, at SB Solution Nepal.

Working as An Front End Developer using Angular (since 2022)

- Developed and maintained web applications using Angular, TypeScript, HTML, and CSS.
- Collaborated with UX/UI designers to implement responsive and visually appealing user interfaces.
- Integrated RESTful APIs and third-party services to enhance application functionality.
- Optimized application performance through code refactoring and efficient data handling.

Working as An Backend Developer using Spring Boot (End of 2022)

- Design and developed the Restful API.
- Build Application using Maven.
- Implement Data Access Layer.
- Using Spring Framework Using the

Skills

- JavaScript, TypeScript
- Core Java
- GIT version Control
- Jira Project Management Tool
- MySQL Server
- Angular JavaScript
